

Course presented in affiliation with **NIARTT** – Northern IL Amateur Radio Training & Testing

2019 – Amateur Radio Technician Class – Aurora, IL

The **Fox River Radio League (FRRL)** is once again working with the **Bolingbrook Amateur Radio Society (BARS)** to co-present another **Amateur Radio Technician Class** license training course this spring/summer. This is a **FREE – 11 week** course. Where you will learn everything you need to receive your Amateur (Ham) Radio Technician Class license.

Technician Class Training Course Dates: **May 18 –thru– July 27, 2019**

This class is designed for people, who are New to the hobby, and interested in finding out more about the world of the Amateur Radio. There is No prior license required. There is No age limit. There is *only* the need of interest in the Ham Radio hobby, and a willingness to learn. Be prepared for interactive, group and individual study. There will be a VE Test exam on the last week of the course. But not to fret, the **Technician Class** course itself provides you with all the knowledge and information that you'll need to pass the exam. Invite your 'Want-a-Be' HAM friends, your Spouse, your Children, Nieces, Nephews, or Grandchildren. **ANYONE** is invited to join the class or "sit in" as a refresher. If you've ever had an interest in Amateur Radio, attend this **FREE** course, study using our guidelines and receive your FCC Amateur Radio **Technician Class** license!

The Technician Class will span over the dates of the **American Radio Relay League (ARRL)** Annual **Field Day Event** on **June 22, 2019**. The Technician Class Students are scheduled to go on a Class **FIELD TRIP** to visit the **FRRL** and **BARS** clubs' **Field Day Site Locations**. This "**Field Trip to Field Day**" event will give the students a wonderful first-hand look and experience at what it's like to be "**On the Air**" as an Amateur Radio Operator!

The Textbook for the class will be the [ARRL Ham Radio License Manual, 4th Edition](#). Be sure you have a copy before class. Books can be purchased online through www.arrl.org or several other online sources such as Amazon, and is also available on Kindle. Additional study material will be given to you at the classes. After receiving your ARRL Ham Radio License Manual book, be sure to review the book and read the first chapter. To dive into learning at class and to ask questions.
