WAC-IL Application / 3

Sponsored by the Fox River Radio League, this award is available to amateurs who have contacted at least one amateur radio operator in 62 or more Illinois counties. A basic certificate is available for mixed band and mode at 62 counties, an advanced certificate is available for 82 counties, and a Grand certificate is available for all 102 Illinois counties. Endorsements for specific bands/modes/etc. are available at each of the levels. It is possible to earn combinations of awards, such as a 102 counties mixed-band and mixed-mode certificate as well as a 62/82 counties CW-endorsed certificate, although separate applications and record sheets should be submitted for each certificate.

Rules:

- Any licensed amateur radio operator may qualify for this award by contacting licensed amateur radio stations in 62, 82, or all 102 Illinois counties.
- Contacts must be direct station-to-station contacts using any mode (no cross-mode contacts). Contacts made through terrestrial repeaters or digipeaters are not eligible toward this award. Satellite contacts are permitted.
- Portable and mobile units may be worked, but records must indicate the county.
- Applicant must possess confirmation, such as through physical QSL cards or Logbook of the World, for each county that details the station worked, date, time, frequency, mode, and county.
- Send the completed application and record sheet to the address below.
