

# HAM RADIO CLASS

The Fox River Radio League will be holding a free 7 week course where you can learn everything you need to earn your Amateur Extra Class amateur radio license.

This class is designed for people with some background in radio and a General class license. Be prepared for individual study also. This is not an easy test, but with study, passing follows. The test is a 50 question multiple choice written test. **ANYONE** is invited to join the class or “sit in” as a refresher.

The textbook for the class will be The Amateur Extra Class License Manual, 10th Edition. Be sure you have a copy for class. Books can be purchased online through [www.arrl.org](http://www.arrl.org), at local hamfests or several other online sources. Additional study material will be given to you at the classes.
